Mr. Vipul Shah, Chairman GJEPC *The GJEPC has over the years held successful meets with regions such as China, Europe, US, Russia/ CIS with the aim to bring together leading players of these regions with their Indian counterparts, thereby creating wider business opportunities and leading to substantial growth of trade with these countries. The successful Indo-Russian Jewellery Summit held last year as well as the Diamond summit held earlier this year have had a favorable impact on India's trade relations with Russia and we hope that this summit will help the representatives of the Indian and Russian Companies in getting a better understanding of each other's markets and forge relations which will go a long way to establish a forceful working relationship leading to large volume of business being transacted between the two countries.*

**These meets have widened the sourcing opportunities for the Russians since the first edition
of the jewellery summit held last year. This year too we hope to forge business links which
will convert to see a rise in the business transacted between participating members of the
two countries."**
